

Bedrock Geology

After New York State Museum and Science Service
Map and Chart Series no. 15, 1970.

Quaternary fill
Beers Hill, Dunn Hill, Milport, & Moreland Shales
Upper Walton Formation
Enfield and Kattel Formations
Lower Walton Formation
Oneonta Formation
Unadilla, Laurens, New Lisbon & Gilboa Formations
Oriskany Formation
Moscow Formation
Panther Mountain Formation
Marcellus Formation
Plattekill Formation
Undifferentiated Lower Hamilton Group
Onondaga Limestone
Onondaga Limestone – Schoharie Formation
Helderberg Group
Cobleskill Limestone
Vernon Shale
Ilion Shale
Clinton Group
Pulaski & Whetsone Gulf Formations
Frankfort Formation
Schenectady Formation
Utica Shale
Canajoharie Shale
Black River Group
Mohawk Valley Trenton & Black River Groups
Chuctanunda Creek Dolostone
Little Falls Dolostone
Potsdam Sandstone
Theresa Galway Formation
Biotite-hornblende granitic gneiss
Biotite-quartz gneiss
Biotite-quartz-plagioclase gneiss
Granitic & quartz gneisses
Pyroxene-hornblende-quartz-plagioclase gneiss
Pyroxene-quartz gneiss
Quartz-feldspar gneiss
Quartzite, quartz schist & graphitic schist
Undivided metasedimentary rock
Water
Faults
